

# **AMPK Antibody / PRKAA1 (F40150)**

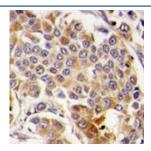

Catalog No.	Formulation	Size
F40150-0.4ML	In 1X PBS, pH 7.4, with 0.09% sodium azide	0.4 ml
F40150-0.08ML	In 1X PBS, pH 7.4, with 0.09% sodium azide	0.08 ml

# **Bulk quote request**

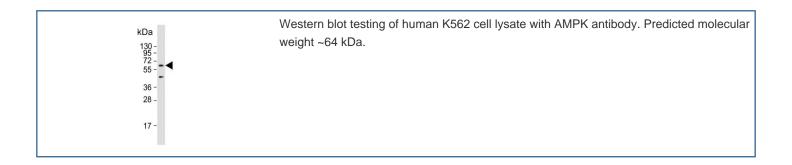

Availability	1-3 business days
Species Reactivity	Human
Format	Antigen affinity purified
Clonality	Polyclonal (rabbit origin)
Isotype	Rabbit Ig
Purity	Antigen affinity
UniProt	Q13131
Applications	Western Blot: 1:1000 IHC (Paraffin): 1:10-1:50
Limitations	This AMPK antibody is available for research use only.

Western blot analysis of AMPK antibody and 293 cell lysate (2 ug/lane) either nontransfected (Lane 1) or transiently transfected with the PRKAA1 gene (2).

IHC analysis of FFPE human breast carcinoma tissue stained with AMPK antibody

### **Description**

PRKAA1 belongs to the ser/thr protein kinase family. It is the catalytic subunit of the 5'-prime-AMP-activated protein kinase (AMPK). AMPK is a cellular energy sensor conserved in all eukaryotic cells. The kinase activity of AMPK is activated by the stimuli that increase the cellular AMP/ATP ratio. AMPK regulates the activities of a number of key metabolic enzymes through phosphorylation. It protects cells from stresses that cause ATP depletion by switching off ATP-consuming biosynthetic pathways.

# **Application Notes**

Titration of the AMPK antibody may be required due to differences in protocols and secondary/substrate sensitivity.

### **Immunogen**

A portion of amino acids 474-502 from human PRKAA1 was used as the immunogen for this AMPK antibody.

## **Storage**

Aliquot the AMPK antibody and store frozen at -20oC or colder. Avoid repeated freeze-thaw cycles.
