

## Phospho-Ammonium transporter Antibody (pT465) (F40066)

| Catalog No.   | Formulation                                | Size    |
|---------------|--------------------------------------------|---------|
| F40066-0.4ML  | In 1X PBS, pH 7.4, with 0.09% sodium azide | 0.4 ml  |
| F40066-0.08ML | In 1X PBS, pH 7.4, with 0.09% sodium azide | 0.08 ml |

| <b>Availability</b> | 1-3 business days                                                              |
| <b>Format</b>       | Antigen affinity purified                                                      |
| <b>Clonality</b>    | Polyclonal (rabbit origin)                                                     |
| <b>Isotype</b>      | Rabbit Ig                                                                      |
| <b>Purity</b>       | Antigen affinity                                                               |
| <b>UniProt</b>      | E2CWJ2                                                                         |
| <b>Applications</b> | Dot Blot : 1:500                                                               |
| <b>Limitations</b>  | This phospho-Ammonium transporter antibody is available for research use only. |

Dot blot analysis of phospho-Ammonium transporter antibody. 50ng of phos-peptide or nonphos-peptide per dot were spotted.

### Description

A member of the AMT family.

### Application Notes

Titration of the phospho-Ammonium transporter antibody may be required due to differences in protocols and secondary/substrate sensitivity.

### Immunogen

This phospho-Ammonium transporter antibody was produced from rabbits immunized with a KLH conjugated synthetic phosphopeptide surrounding pT465 of French bean Ammonium transporter.

## Storage

Aliquot the phospho-Ammonium transporter antibody and store frozen at -20oC or colder. Avoid repeated freeze-thaw cycles.
