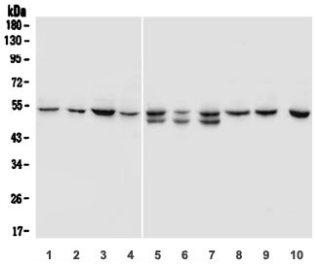
SOX11 Antibody (RQ5841)

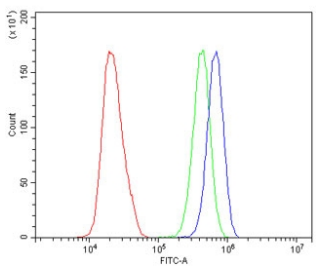
Catalog No.	Formulation	Size
RQ5841	0.5mg/ml if reconstituted with 0.2ml sterile DI water	100 ug

Bulk quote request

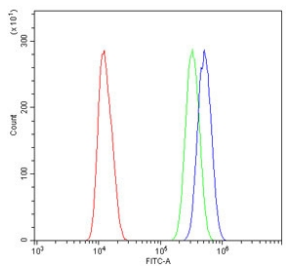
Availability	1-3 business days
Species Reactivity	Human, Mouse, Rat
Format	Antigen affinity purified
Clonality	Polyclonal (rabbit origin)
Isotype	Rabbit IgG
Purity	Affinity purified
Buffer	Lyophilized from 1X PBS with 2% Trehalose and 0.025% sodium azide
UniProt	P35716
Applications	Western Blot : 0.5-1ug/ml Flow Cytometry : 1-3ug/million cells Direct ELISA : 0.1-0.5ug/ml
Limitations	This SOX11 antibody is available for research use only.



Western blot testing of human 1) A431, 2) HL-60, 3) K562, 4) ThP-1 and rat 5) spleen, 6) heart, 7) lung, 8) liver and mouse 9) spleen and 10) lung lysate with SOX11 antibody. Predicted molecular weight ~47 kDa.



Flow cytometry testing of human HeLa cells with SOX11 antibody at 1ug/million cells (blocked with goat sera); Red=cells alone, Green=isotype control, Blue= SOX11 antibody.



Flow cytometry testing of human U-2 OS cells with SOX11 antibody at 1ug/million cells (blocked with goat sera); Red=cells alone, Green=isotype control, Blue= SOX11 antibody.

Description

Transcription factor SOX-11 is a protein that in humans is encoded by the SOX11 gene. This intronless gene encodes a member of the SOX (SRY-related HMG-box) family of transcription factors involved in the regulation of embryonic development and in the determination of the cell fate. The encoded protein may act as a transcriptional regulator after forming a protein complex with other proteins. The protein may function in the developing nervous system and play a role in tumorigenesis.

Application Notes

Optimal dilution of the SOX11 antibody should be determined by the researcher.

Immunogen

Recombinant human protein (amino acids M1-H374) was used as the immunogen for the SOX11 antibody.

Storage

After reconstitution, the SOX11 antibody can be stored for up to one month at 4oC. For long-term, aliquot and store at -20oC. Avoid repeated freezing and thawing.
